The Wonderful Trip

First of all I want to say thank you my university so much about a good activity for the learner, and also can teach the learner many things for example the knowledge from another country, AEC, and how to get more responsibility because I can see the majority from another country. They always study hard, and spend their time to read a book. What about my country? I really worry about it.

In my opinion, this trip taught me how to plan myself to be better. One thing that I like so much from this trip is I got more new friends from Malaysia.

Because when I got new friends from another country, we can share a new knowledge together. So, I would suggest, we should have a trip every semester. I am glad to be here with everyone.

Kanokkan Nootab

UUM is a beautiful university, it is bigger and fresh. I like library at UUM because it is very big, silent, and privacy. UPM is a beautiful university same as WU. I have a new friend from this activity and this activity makes me confidence more and more because I dare to speak English with other people in Malaysia. I am very happy for my English skill and I can practice courage also. I love this trip very much because Wangdek Travel take care us all the time. Their service is very excellent since the first day we met until the last day. They are very excellent. Thank you very much for these activities. One thing that happened to me before I come to Malaysia is I afraid of danger that happen around frontier, but it's all gone after we arrived at Malaysia. The environment around the country impressed me for example the area of UUM. It is very beautiful. Beside the beauty are the system of learning of UUM is very important and very useful for students. After we depart UUM, the route with a beautiful view is

impressed me too. There are some mountains, tunnel, flowers, and all of them make this journey beautiful. In Kuala Lumpur, it is not so much different from Bangkok, but I can feel about crowded is less than Bangkok. The most impression is the journey to Malaysia by the good service of Wangdek Travel. It makes me impressed and I think my friends are like it too. I hope if we have a good chance we can joy together in the next time. I love this trip and love everyone.

Besides, I feel nice to show a public speaking. I can do it again so it makes me so proud. Then I feel good to have the chance to visit many places in Malaysia such as the Royal Palace, universities, and KLCC. Each place is important in Malaysia especially the palace is very beautiful. I went to Putra Jaya that is the new city. It is wonderful place for me because it shows about the Malaysia identity such as the ministry, bridge, mosque and flag. In addition I can eat food in Malaysia that it is a little bit different from my country. Then, the last place makes me very happy that is KLCC. I do shopping and buying something that I want. Thai program is good experience for me and I am much enjoyed.

I am impressed with this activities with two reasons. There are places and activities. Firstly, we took bus from Hat Yai to come here so I could see things different from I thought. We had a long journey. I learnt many things. I learnt how being tourist guide with seeing and comprehending the tourist guide role and duty. The places where were visited. Some of them are campus, historical places, so despite travelling I learnt things. Secondly, activities are useful. Actually we came with tour group. We would not get chance to

practice using English, but not this. We visited universities. We participated in activities. We did done as well. When I get back, I will have nice memories. Places and activities I done here, it is really unforgettable.

My Impression

My impression in Malaysia with the English Discovery Program is the best opportunity to learn language and culture. It can make me known the other friends who are the foreigner in UPM. This trip makes me learn the progress of Malaysia. The new office of the Malaysia's government in Putra Jaya where is the best building located that very beautiful place in Malaysia. I think this trip gives me to give an opportunity to exchange the culture and language. It can create the new friends and can study the best thing outside classroom. This trip give me to study from the real place, real people. This is the best experience for me. I want to say thank you.

So, I hope I will contact them after this trip. I like the activity that they allow us to joy and find a new matching group. I am the CAT group. They told me to make a CAT's sound to find members. I have to remember my team member too. Then, I have a new activity. They asked me to fine a member that have the same month of birth. I have experienced many things while travelling in Malaysia. Since the first day of travelling, I have experienced about staying with other friends because we had to get to the bus at night. We need to stay at the hotel for a day. Before travelling, I was not familiar with them, but I had a good relationship with them from travelling. Next, I have learned about entrancing and existing from country. In the third semester, I took a course about principles of tourist guide. I learned about the information for entrancing and existing from the country in the classroom, and I could apply it in this trip. The first place where I visited in Malaysia is UUM (Universiti Utara Malaysia). It is located in the border of Malaysia. I think it is not much different from Walailak University because there are lots of trees there. It looks very natural. I really like the building. It is rather modern. Moreover, the library is very large and high technology. The second day of trip, I have experienced many things at UPM. Firstly, I had more friends there. They were Malaysian, and I have learned about their culture. Next, I have learned English skill. It is very useful.

Secondly, I impress with both universities that I visited, they welcome us with warm and wonderful and their university also gives friendship and knowledge. Thirdly, the beautiful place that we can show others with the stunning building. We take the photo to keep good memory of that moment. Include, I very impress with the staff of Wangdek Travel. They take care of us with heart and I want to tell them that they receive our heart too.

However, this opportunity gives me to learn foreign culture, social, food and etc. of Malaysia. So, it is important with us to prepare with AEC. Thank you all part of people that give this opportunity to us. And I hope to learn more foreign country to keep and learn their culture.

It is clean and I am very proud that I came here and received a good experience back to Thailand. I will tell my friends, my family and other people to visit Malaysia. For Wangdek Travel, I am very proud because they take a good care of us. I like them.

Pathamadee Bunnontae

This is the first time I went to Malaysia and to foreign country. Overview, I think this country is not different from Thailand. Malaysia is good wildlife, good society and good citizen. But we have a problem with food in Malaysia because we don't intimate food in area. The discourse impressed of trip is to share their experiences with the two universities. I think to share experience; we will get a new friend. At UPM, I talk and exchange knowledge with friend. I think this trip breakeven and I hope to come back again to Malaysia.

Ratima Suwannarat

This is the first time I go to Malaysia. I was excited very much. I really concern about my public speaking but I will do my best. The way of journey, I slept all the time. Only the time that I knew is I am going to Hat Yai. When we went to Malaysia I feel I live in Thailand. These houses built similar but there have many factories. At That time, I just want to rest only. I forgot to say about the person to move this trip. They are Boat, Jimmy, A-chin and Pae. I said that if we don't have them this trip can not go on at all. They always service us all the time. I know who want to be a guide you have to service in your soul. I impress with day 2 most because I took a picture and shopping; how wonderful it is! Last, I want to thank for one person if we have not her, I can not go to Malaysia that is P' Kungnang. I have a great experience like that with my friend because of her.
